

Curriculum

Our students are involved in an engaging, rigorous curriculum with units spanning all 8 Key Learning Areas. Units regularly culminate in days of celebration which showcase student work highlighting their achievements. Often parents like to join in these days to share in the success of their child.

Our curriculum reaches its crescendo at the end of year concert which is quickly becoming one of the premiere events on the Boonah Cultural Calendar. Attendance numbers are increasing each year and extra shows have been scheduled due to the high quality of the performances which involve cooperation between staff, students and parents. This year's show promises to build on the excitement and success of our 2007 Boonah Live Aid Concert.
